

Illuminated Stop Signs, Flashlights, LED Wands & LED Flares

EASY TO USE LIFE SAVING SIGNS FOR: CONSTRUCTION SITES ...

FIRE SCENES ...

POLICE DEPARTMENT USE ...

You will see our signs –
NIGHT OR DAY!

All About Safety Signs

Unlike any other traffic control signs on the market today, our 2-sided paddle type signs spell out the words STOP or SLOW in ultra-bright LEDs and will be seen long before headlights reflect off

Traditional signs. These Illuminated signs will provide increased visibility in all weather conditions and are visible for up to 1 mile at night, low light and no-light situations!

18" Signs are available in "STOP-STOP" & "STOP-SLOW" configurations. May be set to continuous or flashing display. Colors are "Stop Sign Red" and "Slow Orange". Uses diamond grade reflective materials and is water resistant and usable in all weather conditions.

A telescoping pole is available for hand-held operation and our heavy duty stand and vehicle mount allow free-standing operation. Pole and stand collapse for easy storage in a standard vehicle trunk. Soft cases are available for ease of sign transport & storage.

Signs may be battery operated using 4 D cells inserted into the handle, or operated via AC power using optional power adapter. Battery Life is 16 hours with both sides of the sign illuminated, 32 hours with one side off. There is a convenient Low Battery LED on the sign's side.

Specifications

Illuminated Stop & Slow Signs

*Easy to Use Life Saving Traffic Control Signs
for Accident Scenes, Fire Scenes, Traffic Stops,
Construction Scenes and Crossing Guard Use*

Each year hundreds of responders are killed and thousands injured by traffic while at accident scenes. Our signs use ultra-bright LEDs to capture the attention of approaching traffic and can be seen from over a mile away during night and low visibility conditions. Unlike standard reflective signs, our LED illuminated signs will not get washed out by backlighting, providing a safer scene environment.

	<u>With Heavy Duty Stand</u>	<u>With Standard Stand</u>	<u>Without Stand</u>
18" Package	\$566.95	\$536.95	\$377.95

	(for use in moderate winds)	
ST-639HD	Heavy Duty Spring Stand	\$189.00
	(intended for high winds / highway traffic)	
MM-698	Magnetic Mount	\$139.50
	useful for vehicle-top mounting	

Sign Power Accessories

PADD-686 110V to 120V AC Power Adapter \$99.00

Sign Guards

Wire rim that surrounds sign for added protection from harsh treatment.

G-521 Guard – Set of 2 (both sides of 1 sign) \$89.00

Flashlights

KG-8601C 8601C 6" Tactical Flashlight \$25.00
6 inch long flashlight uses Cree XRE bulbs for a 130 Lumen bright output.
Operates using 2 standard AA batteries (not included).
4.5oz (6.3oz with batteries)

Shipping & Handling: \$1.50 per flashlight (\$8.00 minimum)

LED Wands

These durable wands offer exceptional visibility in night-time conditions. Our ultra-bright red wand is colored red even when the unit is off – ideal for day-time traffic control. And our color-change red-green wand allows you to signal traffic to stop or go. Magnetic Red Baton adds a flashlight feature.

LE-BD7R7G Red-Green Color Change LED Wand \$25.00
Can be set to Flash either Red or Green.
21 inch wand uses 7 Red and 7 Green LEDs along a 13.5" length.
Powered by 3 C Batteries.

LE-BD14RED Ultra-Bright Red LED Wand \$20.00
This is one of the Brightest LED Wands in the Industry
and is Easily Visible – day or night !
Can be set for continuous or flashing LED display.
21 inch wand uses 14 red LEDs positioned along a 13.5" length.
Powered by 2 C Batteries for 200 hours of flashing operation.

KG-913R Magnetic Red Baton – Flashlight \$25.00
10.5 inch long baton features 18 red LEDs along a 6" length
plus 12 white LED's at the tip.
4 operating modes: Baton steady on, baton flash, flashlight
and flashlight with baton steady on
Magnetic base allows use of the baton as a flare.
The result is a baton which has excellent brightness for both traffic control
plus acts as a bright flashlight.
Powered by 3 AA batteries for 6 to 11 hours of operation, depending on the mode.

Shipping & Handling: \$1.50 per wand (\$8.00 minimum)

ULTRA BRIGHT LED FLARES

Brighter than anything else you'll find on the Market today!

- Over 3 mile visibility
- No Fumes, No Dangerous Flames
- Weather Resistant & Crush Resistant
- Built-in Magnetic Base
(not intended for moving vehicles)
- Cost Effective: Pays for itself in just 5 hours!
\$0.08 per hour LED Flare operational cost
versus \$4.00 per hour with conventional flares

Beacon Pro

With >190 Lumens, these Ultra-bright Flares are brighter than all other LED Flares on the market today. Unlike other Flares, Beacon Pro uses one ultra-bright LED in the center of the flare for a more uniform brighter result in upward angles, in addition to bright side illumination.

Crush Resistant (up to ~20,000 lbs vehicles) and operates via 4 AA Batteries (30 hour battery life in flash mode; 10 hours in continuous mode). Dimensions 3.75" x 3.75" x 1.75" and weights 8 oz with 4 AA batteries.

Available in Red, Yellow, Blue, Green and White

Red or Yellow Flares: \$20.00
Blue, Green or White Flares: \$25.00
Kit with Small Bag + 3 Red Flares: \$70.00
Kit with Large Bag, 7 Red + 1 Blue Flare & 8 Bases: \$249.00

Beacon

These cost effective flares use the same crush resistant design as the Beacon Pro but are slightly less bright. 4 AA batteries provide 70 hour of run time in flash mode; 20 hours in continuous mode.

Available in Red or Yellow: \$12.00

Shipping & Handling: \$1.50 per Flare, Base, Cone Adapter or Bag (minimum: \$8.00)

Cone Adapters: \$8.00

1 or 2 flares magnetically adhere to the adapter. Place into cone or screw onto weighted base to create free-standing roadway flares. 11" Tall and weighs 7 oz.

Weighted Base: \$8.00

Adheres magnetically to the flares. Adds weight for high wind applications. 4" wide x 3/8" thick and weighs 18 oz.

4 AA Alkaline Batteries: \$2.00

Large Bag: \$20.00

Holds up to 8 Flares, 8 Cone Adapters, 8 Weighted Bases and 32 Spare Batteries

Small Bag: \$10.00

Holds 3 Flares and 12 Spare Batteries
